Press Release

HydroGarden will be part of the 100th birthday celebrations at The Chelsea Flower Show

HydroGarden has joined forces with Horticolous, Suttons Seeds, Solardome Industries and Paignton Zoo to showcase the future of growing at The Chelsea Flower Show.

This is the first time HydroGarden has appeared at this prestigious gardening event.

The RHS is celebrating 100 years of Chelsea in 2013. HydroGarden is proud to be involved in 'The Secret Garden of Past & Present', working together with Suttons Seeds, Paignton Zoo, Solardome Industries and Horticolous Landscape & Garden Design.

Moving on a journey through time, visitors will experience an old glass house with period plantings, including vegetables and a cutting garden.

They will be taken by surprise as they are led into a contemporary garden, featuring an ultra-modern Solardome Glasshouse, housing cutting edge soilless growing techniques from HydroGarden, including hydroponics and aquaponics.

Date: May 5th 2013
